

Fairy door sign

1. Put a small plate onto a sheet of paper and draw around it with a pencil. Then, cut out the circle you have drawn.

2. Fold the circle in half, then in half again, and open it out. Then, cut along two of the folds and remove one quarter.

3. Draw two wings touching the folds. Then, cut around the wings and along the folds to make the wings, like this.

4. Decorate the body and the wings. Push the wings together, so the body curves, then glue them onto some thick paper.

5. Cut out a head and draw a face. Then, cut out hair and glue it on. Draw two arms on the paper quarter you kept earlier.

Asha's Room

You could glue your fairy onto a heart. Leave room to write your name.

Decorate the sign with shiny stickers.

Decorate the arms.

6. Cut out the arms. Then, cut hands and glue them onto the arms. Glue the arms and the head onto the body.

7. For legs, cut two long strips of paper. Make one end of each leg rounded, then fold the legs lots of times, to make zigzags.

8. Glue the legs under the body, with the rounded ends at the bottom. Then, write your name above the fairy.
