

Pretty star wand

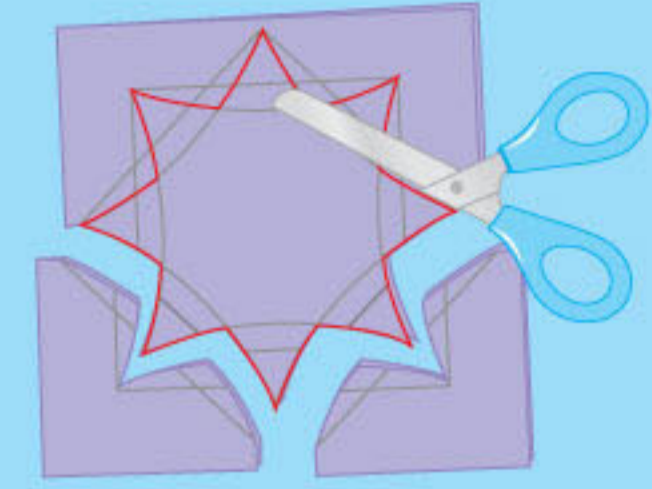

1. Fold a piece of thin cardboard in half. Draw a square on it and add curves inside the edges.

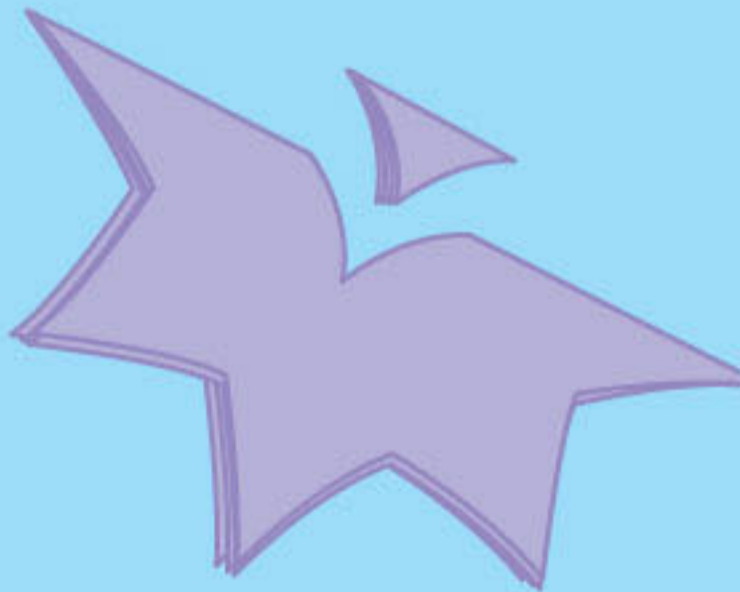

2. Turn the cardboard a little. Then, draw another square over the first one. Add curves, as before.

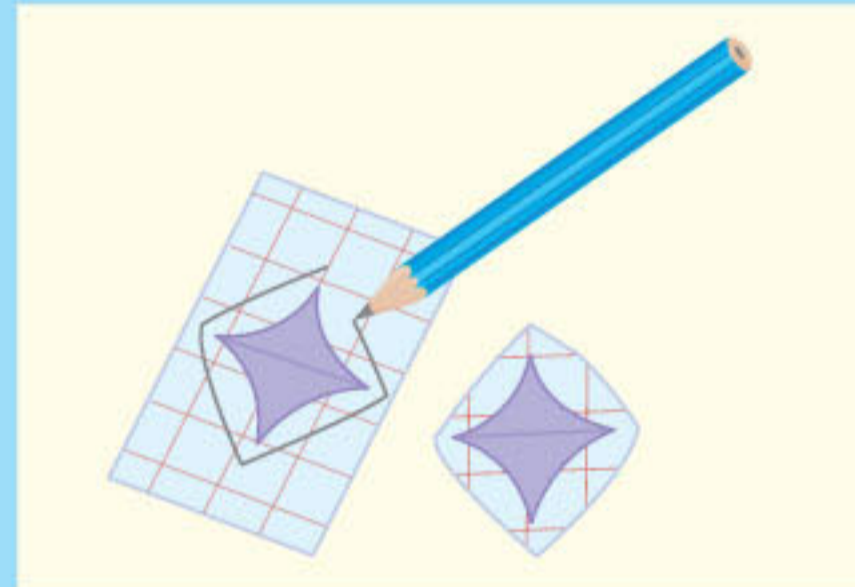

Cut through both layers.

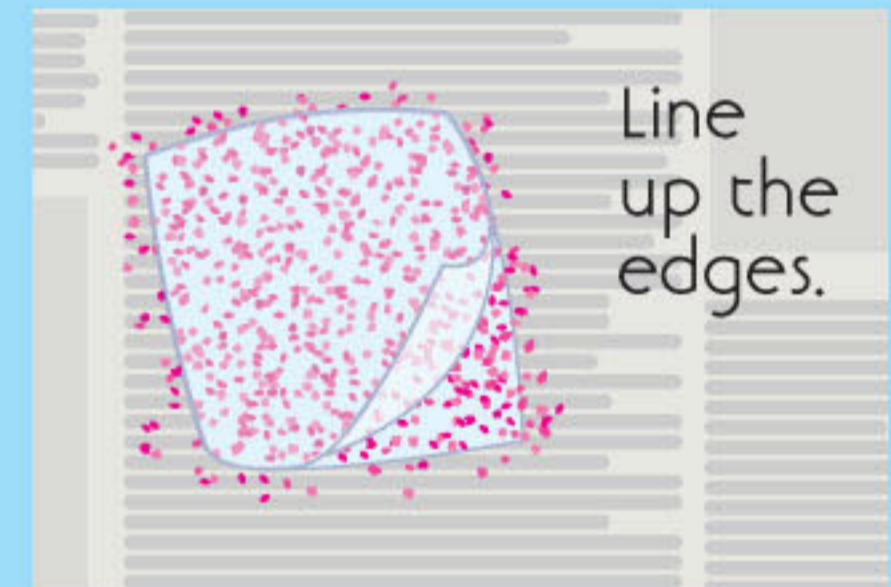

3. Draw around the outline of the curves with a red pencil, to make a star. Then, cut out the star.

4. Fold the stars in half. Draw a curved triangle on the fold and cut it out. Then, unfold all the shapes.

5. Lay the middle pieces on book covering film. Draw a border around them. Cut out the shapes.

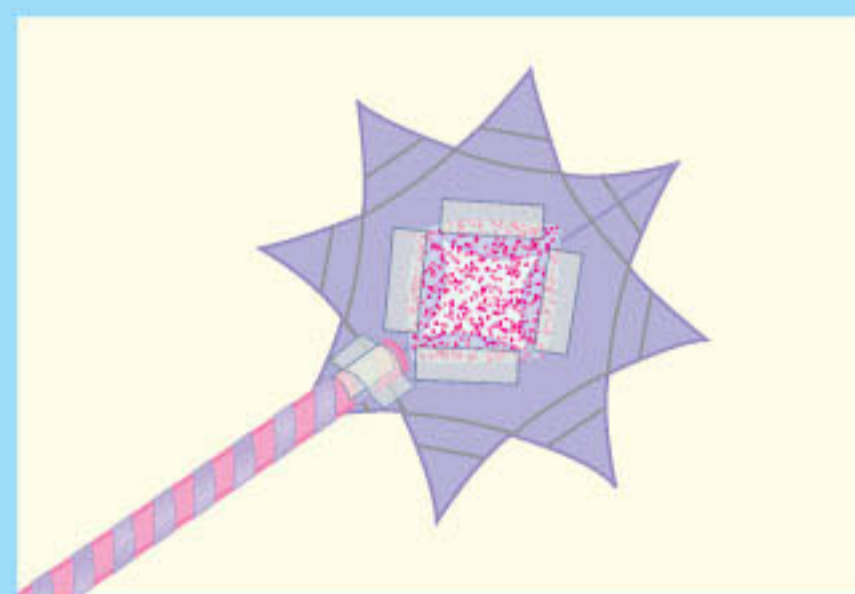

Line up the edges.

6. Peel the backing paper off the shapes. Sprinkle glitter over one, then press the other shape on top.

7. Tape a long piece of gift ribbon to one end of a straw. Wrap it tightly around and around, then tape it.

8. Tape the straw onto the star with pencil lines on one side. Tape the sparkly shape over the hole.

Decorate both sides.

9. Tie gift ribbon onto the straw, below the star. Glue the other star on top, then glue on sequins.
